

Focus on Proposed New Allis School Building Area

There are currently 446 elementary students (KG-5th) living in Allis’ southern section (future New Allis attendance area), with 272 attending Allis, 147 Nuestro Mundo, and 7 Glendale. There are also 16 KG-5th students open enrolling in this area.

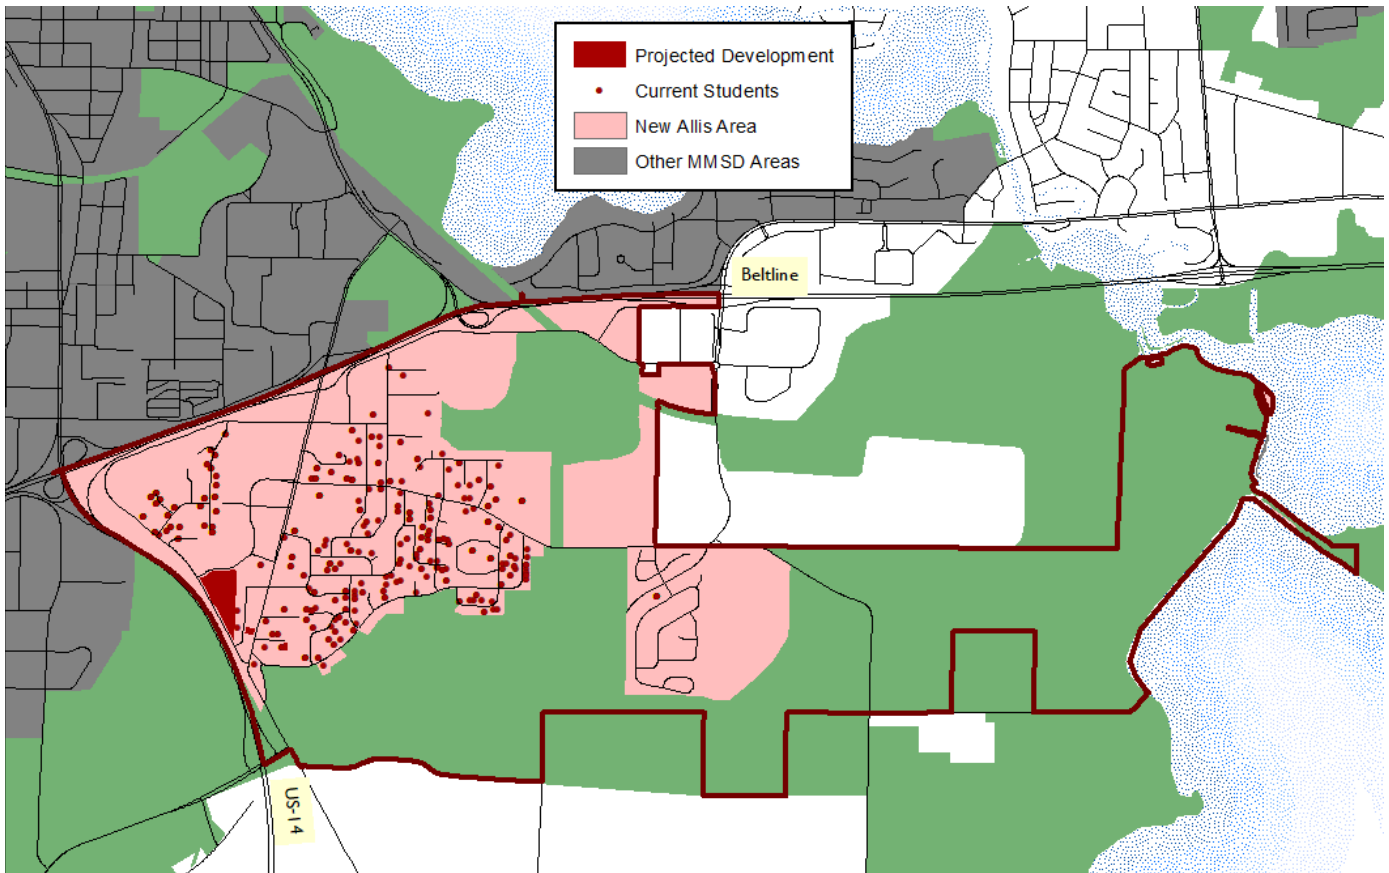

Currently, there are projected to be about 41 students added to the area due to projected development over the next 0-5 years.

The area is isolated from other areas by the Beltline to the north, US Highway 14 to the west, and green space and a lake to the east.

Allis, the school currently assigned to this area, is further away from the students living in this area than several other current MMSD elementary school buildings.

The area can support an ideally sized elementary school (450 students enrolled) based on the number of students living in the area, so we believe the area would benefit from a neighborhood school.

Students and Projected Development in New Allis Area

Current students (points) and Projected Development (polygons) are filled with the color of the area they lie in
